TN State Standard addressed:	Recommended resource(s):	Recommended Practice(s):
1) Identify the benefits of knowing and applying basic safety procedures in both an agricultural laboratory and workplace. Interpret current Occupational Safety and Health Administration (OSHA) guidelines to conduct a compliance review of the agricultural laboratory, including a written summary justifying the findings with recommendations for improving the safety of working conditions.	"Your thoughts summary"	COVID-19 as taken the world by storm and created a havoc like never before, under the current order to stay at home some business are deemed essential, our school shop if it was a business would still be open what precautions would we need to take in order to make sure we maintained a safe and profitable business. Make sure to think back to our safety lessons and use terms like "how" and "why" should that be done.
1) Identify the benefits of knowing and applying basic safety procedures in both an agricultural laboratory and workplace. Interpret current Occupational Safety and Health Administration (OSHA) guidelines to conduct a compliance review of the agricultural laboratory, including a written summary justifying the findings with recommendations for improving the safety of working conditions.	Article Review	https://www.brookings.edu/research/how-to-protect-essential-workers-during-covid-19/ Read this article and summarize in half of a page what it says about how to protect.
1) Identify the benefits of knowing and applying basic safety procedures in both an agricultural laboratory and workplace. Interpret current Occupational Safety and Health Administration	Article Review	https://www.doh.wa.gov/Coronavirus/Workplace

CTE COURSE ENRICHMENT ACTIVITIES

<p>(OSHA) guidelines to conduct a compliance review of the agricultural laboratory, including a written summary justifying the findings with recommendations for improving the safety of working conditions.</p>		<p>This article talks about different things that would have to be done on a daily basis to help keep everyone health, on a sheet of paper write down things we would have to do in our shop daily to make sure people stay healthy.</p>
<p>1) Identify the benefits of knowing and applying basic safety procedures in both an agricultural laboratory and workplace. Interpret current Occupational Safety and Health Administration (OSHA) guidelines to conduct a compliance review of the agricultural laboratory, including a written summary justifying the findings with recommendations for improving the safety of working conditions.</p>	<p>Video Review</p>	<p>https://www.osha.gov/Publications/OSHA3990.pdf</p> <p>This is OSHA response to the COVID-19 out break, please refer to page 7 and see where it states (Develop an Infectious Disease Preparedness and Response Plan), with our business being deemed essential please develop a short plan that we may post so our workers have what they need according to OSHA those questions are outlined on page 7 and 8.</p>
